## OKOGA applauds Mullin appointment as energy bill conferee

(May 26, 2016) -- The Oklahoma Oil & Gas Association is very pleased with the appointment of U.S. Rep. Markwayne Mullin, R-OK 2, as a House conferee to work on a comprehensive, federal energy bill. As a small businessman from a top-producing oil and gas state, Congressman Mullin understands the importance of reliable and safe energy to the security of the nation.

The energy bill is necessary to enact a comprehensive energy package that reflects the new reality of the United States being the world's leading producer of oil and natural gas. It's imperative that our country deliver a forward-looking energy policy in order to remain globally competitive and secure.

Oklahoma has been a substantial contributor to the renaissance that has made the U.S. an oil and natural gas superpower. Congressman Mullin understands the unique opportunity facing the U.S. to fully realize the economic and geopolitical opportunities the U.S. shale revolution has provided.

*The Oklahoma Oil & Gas Association is a non-profit association composed of oil and gas producers, operators, purchasers, pipelines, transporters, processors and service companies which represent a substantial sector of the oil and gas industry within the State of Oklahoma. The Oklahoma Oil & Gas Association is dedicated to the advancement and improvement of the oil and gas industry within the State of Oklahoma and throughout the United States.*
