

OKOGA STATEMENT ON NEWFIELD EXPLORATION

OKLAHOMA CITY (Nov. 1, 2018) – Oklahoma Oil and Gas Association (OKOGA) President Chad Warmington issued the following statement on Encana Corporation's planned acquisition of Newfield Exploration:

"Newfield's contributions to the advancement and development of Oklahoma's oil and gas industry cannot be overstated. Their commitment to the communities where they operate and their laser-like focus on operating safely and responsibly is why they are such a well-regarded company here in Oklahoma. This state owes a huge debt of gratitude to Newfield's leadership and their entire team for believing in, and investing heavily in, Oklahoma, and we look forward to welcoming Encana to the Oklahoma oil and natural gas family in the coming months."
